Green Lantern #54 & Green Lantern Corps #48

Bill-E

Yes two reviews in one!! *Green Lantern #54* weaves in with the Brightest Day story arc exceptionally well (so readers pull out those wallets). Story wise we get a view of Hal, Carol and Sinestro, as well as some personal favorites as Dex-Starr (the rage cat) and BOM BOM BOM Sodam Yat! Doug Mahnke's art here is stellar and his characterization of heroes and villains is fabulous.

Moving on to the Corps, if you notice Tony Bedard and Ardian Syaf took the helm from Peter Tomasi and Patrick Gleason. Guess when I noticed that? Like a week later! This reads much like the Tomasi scripts we have been grown accustomed to over the last three years or so. It looks like great things are ahead for this new duo, so doubt not GL fans!

Combining them to an average of an 8.0 out of 10.
