The Amazing Spider-Man #627

by *Bill-E*

“Something can stop the Juggernaut!” is the catch phrase for our web-headed friend’s new adventure. So, you guessed it something did stop the Juggernaut, but like any good story the why, who and how will be answered in the next two installments. What got me to pick up this issue up was not the idea of something being able to stop the Juggernaut, but the old ‘90s Spider-Man and His Amazing Friends VHS I have, where Spider-Man and the X-Men take on the Juggernaut, yes it was classic!! This issue gives us a few flash backs for new readers to learn that Spider-Man and Juggernaut have tangled a few times before and is a familiar face in the Spider-Man mythos.

Overall, I was pretty unimpressed by this issue. It is a pretty bland read, and not being a big follower of Spidey, but yet a comic geek, I pose the question where this fits in with the gauntlet story line that has been going on? Hopefully Roger Stern will give us something to tantalize our spider-senses in the next two issues. 5.5 out of 10.
